INDEX FOR TECHNICAL NEWS BULLETIN, 1932

A

Page

Abrasion, resistance to, of sillimanite porcelain die 16
Abrasive effect of plastic spark-plug porcelain on a vanadium steel die 94
Acid-polluted air, effect of, on paper 56
Acidity of solutions, glass electrode for measuring 113
Adhesiveness of bituminous pipe coatings 75
Aeronautic instruments, rubber diaphragms for 15
Aircraft speed instruments 111
Airplane mapping, instruments for 38
Airplane receiving equipment for visual radio range beacons 40
Airplane rudders 53
Aldose sugars, oxidation of, by bromide water 24
Alpha-benzoinoxime, use of, in determination of molybdenum 67
American Physical Society, one hundred and seventy-seventh meeting of 45
Amplifier tube for feeble pulses 72
Antenna systems, directional, polar patterns of 46
Antimony electrode for measuring acidity of rubber latex 56
Atmospheric conditions, influence of, on sound absorption 72
Autoclaving as durability test for concrete aggregates 58

B

Balance beam, changes in length of 14
Barograph traces, legibility of 73
Base exchange capacities of clays 117
Bearing alloys, white-metal, mechanical properties of, at elevated temperatures 43
Bearing bronze, effect of casting temperature and of additions of iron on 6
Binders board, physical properties of 96
Bituminous pipe coatings, adhesiveness of 75
Bond papers from highly purified wood fibers 27
Book papers, permanence of 115
Braille paper, standard for 26
Brass, cast red, factors affecting the physical properties of 44
Brick, common, color range of 33
Brick, fire clay, thermal expansion of 76
Brick masonry beams, reinforced, shear tests of 93
Brinell test for Keene's cement 58
Bronze, bearing, effect of casting temperature and of additions of iron on 6
Building boards, fiber, properties of 15
Burgess, George Kimball 63

C

Calcium silicates, reaction of water on 106
$CaO–B_2O_3$, the system 94
Capacitance, standards of, comparison of international 39
Cause or chance 23
Cellular sheet-steel flooring 77
Cement, curing of, under high temperatures 34
Cements, masonry 28
Ceramic materials, volume changes in, due to weathering 83
Chance, cause or 23
Chromium plating, theory of 85
Cinder aggregates for concrete building units 47
Clay columns, extrusion of, resistance to abrasion of porcelain die used in 16
Clay, fire, fundamental properties of 7
Clay materials, fired, glass phase in 57
Clay products, moisture expansion of 76
Clays, English china, colloid content of 94
Clays, base exchange capacities of 34, 117
Clinical thermometers, testing 54
Clock-controlled constant-frequency generator 1
Colloid content of English china clays 94
Color differences, sensibility to 95
Color range of common brick 33
Color-temperature change, sensibility to, as a function of temperature 105
Column curves and stress-strain diagrams 93
Combustion processes in aircraft engines 54
Compressive strength of stone 16
Concrete aggregates, autoclaving as a durability test for 58
Concrete building units, cinder aggregates for 47
Concrete, gypsum fiber, volume changes in 6
Concrete proportioning 75
Concrete-reinforcement bars, deformed, test methods for 92
Conference of State utility commission engineers (1932) 64
Constant-frequency generator, clock-controlled 1
Copper, soldered and tinned, weathering of 26
Corrosion of knitting needles 104
Corrosiveness of soils, determination of 35
Cosmic rays, deflection of, by a magnetic field 112
Cotton, raw, paper from 27
Creep in steels under load at elevated temperatures 85
Curbstone paint 75

D

Deformation, elastic and plastic, thermal effects in 67
Developers, photographic 37
Diaphragms, rubber, for aeronautic instruments 15
Dies, vanadium steel, resistance of, to abrasion 83, 94
Directory of specifications, national 59
Distance ranges of radio waves 14
Dosage meter, ultra-violet intensity 55
Dry-cleaning solvents 1

E

Eclipse of August, 1932, radio measurements during 81
Educational courses at the Bureau of Standards, 1932–33 84

	Page
Elastic and plastic deformation, thermal effects in	67
Electric insulators, liquids as	95
Electric lamps, incandescent, characteristic equations of	111
Electrical conductance of nonmetallic pipe coatings	45
Electrical lines, overhead, revised stresses in wood poles for	60
Electrode, glass, for measuring acidity of solutions	113
Empire State Building, wind pressure on a model of the	101
Emulsions, photographic, analytical methods for	55
Emulsions, photographic, further studies of	38
Enamel, ground-coat, plasticity of	116
Enamels, ground-coat, thermal expansion of	77
Engine, internal combustion, effect of humidity on power of	25
Engines, combustion processes in	54
English china clays, colloid content of	94
Exposure tests of outside white and tinted paints	102
Extrusion of clay columns, resistance to abrasion of porcelain die used in	16

F

Fading of orange paints	102
Federal Fire Council, January 29, 1932, meeting of	18
Federal Fire Council activities	92
Fiber building boards, properties of	15
Fire clay and fire-clay brick, thermal expansion of	76
Fire clay, fundamental properties of	7
Fire protection of valuable records	48
Flooring, cellular sheet-steel	77
Fraunhofer lines, identification of, in infra-red spectra	38
Frequency checking apparatus, radio, type testing of	13

G

Gas burners, domestic, design of	24
Gasoline, formation of gum in	15
Generators, high-voltage X-ray, comparison of	82
Glass electrode for measuring acidity of solutions	113
Glass phase in fired clay materials	57
Glass, relation between density and refractivity of	28
Glasses, soda-lime, density and refractivity of	107
Glaze, pottery, weather resistance of	57
Gravimetric determination of metals	97
Ground-coat enamel, plasticity of	116
Gum, formation of, in gasoline	15
Gypsum-fiber concrete, volume changes in	6

H

Heat of vaporization of water	24
Helium, infra-red spectra of	72
High-tension insulator porcelain	116
Household, safety for the, new circular on	65
Humidity, effect of, on power of internal-combustion engines	25
Hydraulic engineering as a profession	8
Hydraulic laboratory, national	68
Hydraulic lime, production of, from diatomaceous marl	7
Hydrogen, isotope of, concentration of, in water	105
Hydrogen isotope of mass 2	23
Hydrogen sulphide, evolution of, from vulcanized rubber	74
Hygrometry in paper testing	15

I

Incandescent electric lamps, characteristic equations of	111
Infra-red spectra, identification of Fraunhofer lines in	38
Infra-red spectra of helium	72
Insulator, porcelain, high-tension	116
International Sugar Commission, reconvening of	89
Iridium, separation of rhodium from	97
Iron, cast, volume changes in, during casting	43
Isoelectric point of silk	96
Isoelectric point of wool	56
Isotope of hydrogen, concentration of, in water	105
Isotope of hydrogen of mass 2	23

K

Kaolins, typical American, modulus of rupture of	48
Keene's cement, Brinell test for	58
Knitting needles, corrosion of	104

L

Lathe attachment for turning approximately spherical surfaces	73
Lead oxide, melting point of	116
Leather containing sulphuric acid, effect of atmospheric moisture on	26
Legibility of barographic traces	73
Levulose, determination of, in crude products	105
Libraries, preservation of records in	4
Light, Second International Congress on	90
Lime, hydraulic, production of, from diatomaceous marl	7
Liquids as electric insulators	95

M

Magnesia in phosphate rock, determination of	97
Magnesite, thermal expansion of	106
Magnetizing force, unit of	112
Mapping, airplane, instruments for	38
Marl, diatomaceous, production of hydraulic lime from	7
Masonry cements	28
Melting point of lead oxide	116
Metals, volume changes in, during casting	5
Metric pamphlet, revised	77
Mica, muscovite, linear thermal expansion of	46
Mimeograph paper, experimental tests of	97
Misregister, causes of, in offset printing	86
Moisture expansion of clay products	76
Molybdenum, use of alpha-benzoinoxime in determination of	67

N

National directory of commodity specifications	59
National hydraulic laboratory	68
Needles, knitting, corrosion of	104
Nickel-chromium alloys for weights	98
Nitrogen content, standard steel samples of known	106

O

Oersted, the (unit of magnetizing force)	112
Offset printing, causes of misregister in	86

	Page
Oriental papers, old	35
Oscillograph, cathode ray, use of voltage dividers with	68
Oxidation of aldose sugars by bromide water	24

P

Paint, curbstone	75
hiding power of	66
red lead	115
Paints, orange, fading of	102
outside white and tinted, exposure tests of	102
red lead, roof exposure tests of	115
weathering of, accelerated	115
Paper, bond, from highly purified wood fibers	27
Braille, standard for	26
deterioration of, in acid polluted air	56
determination of stability of, by heating	86
Paper from raw cotton	27
Paper, mimeograph, experimental tests of	97
permanent photostat	36
permanent record	47
photographic, specifications for	73
Paper researches, advisory committees for	5
Paper-testing equipment, new types of	103
Paper testing, hygrometry in	15
Paper testing standards, progress in	35
Paper towels	36
Papers, book, permanence of	115
handmade, stability of	65
old Oriental	35
Permanence of book papers	115
Permanent record paper	47
Phosphate rock, determination of magnesia in	97
Phosphorus, infra-red arc spectrum of	24
Photographic developers	37
Photographic emulsions, analytical methods for	55
further studies of	38
sensitization of, by dyes	95
Photographic paper, specifications for	73
Photostat paper, permanent	36
Pipe coatings, bituminous, adhesiveness of	75
nonmetallic, electrical conductance of	45
Plasticity of ground-coat enamel	116
Polar patterns of directional antenna systems, graphical determination of	46
Poles, wood, for overhead electrical lines, revised stresses in	60
Porcelain die, abrasive resistance of	16
Porcelain, high-tension insulator	116
plastic spark plug, abrasive effect of	94
Potentiometer, multiple range, for measuring small temperature differences	113
Pottery glaze, weather resistance of	57
Preservation of records in libraries	4
Printing, offset, causes of misregister in	86
Protective coatings, effect of, on endurance properties of steel	66
Proving rings, thermal effects in	67

R

Radio field intensity measurements	39
Radio field stations, new	81
Radio-frequency checking apparatus, type testing of	13
Radio measurements during the eclipse of August 31, 1932	81
Radio range beacons, airplane receiving equipment for	40
Radio transmission over long paths	14
Radio transmissions of standard frequency	29
Radio transmissions of standard frequency, change in schedule of	82
Radio waves, distance ranges of	14
Rail steels, tensile properties of, at elevated temperatures	17
Records, preservation of, in libraries	4
Records, valuable, fire protection of	48
Red-lead paint	115
Red-lead paints, roof exposure tests of	115
Reinforcement bars, deformed, test methods for	92
Rhodium, separation of, from iridium	97
Rubber diaphragms for aeronautic instruments	15
Rubber latex, measurement of acidity of, by the antimony electrode	56
Rubber, vulcanized, evolution of hydrogen sulphide from	74
Rudders, airplane	53

S

Safety for the household, new circular on	65
Sealing wax, identification of	116
Sensibility to color differences	95
Sensitization of photographic emulsions by dyes	95
Shear tests of reinforced brick masonry beams	93
Short-time tests of steels at elevated temperatures	85
Silk, isoelectric point of	96
weighted, analysis of	104
Sillimanite porcelain die, resistance to abrasion of	16
Slate, physical properties and weathering characteristics of	65
Soil corrosiveness, determination of	35
Solders and soldering, letter circular on	86
Solvents, dry-cleaning	1
Sound absorbing materials, manufacture of	71
Sound absorption, influence of atmospheric conditions on	72
Specifications, national directory of	59
Spectra, infra-red, of helium	72
Spherical surfaces, lathe attachment for turning	73
Stability of handmade papers	65
Stability of paper, determination of, by heating	86
Standard frequency radio transmissions	29
Standard frequency radio transmissions, change in schedule of	82
Standard steel samples of known nitrogen content	106
Standard time throughout the world	99
Standards yearbook, 1932	59
State utility commission engineers, conference of	64
Statical hysteresis and flexural stress in a freely vibrating U bar	46
Steel, effect of protective coatings on endurance properties of	66
Steel flooring, cellular sheet	77
Steel samples of known nitrogen content	106
Steel, tool, correlation of some mechanical and magnetic properties of	44
Steels, creep in, under load, at elevated temperatures	85
rail, properties of, at elevated temperatures	17
short-time tests of, at elevated temperatures	85
Stone, high compressive strengths for	16

Page

Stress-strain diagrams, column curves and 93
Sugar Commission, International, reconvening of 89
Sugars, aldose, oxidation of, by bromide water 24
Sulphide, hydrogen, evolution of, from vulcanized rubber 74
Sulphuric acid, leather containing, effect of atmospheric moisture on deterioration of 26
System, C_aO-B_2O_3 94

T

Temperature, color-temperature change as a function of 105
Thermal effects in elastic and plastic deformation 67
Thermal expansion, linear, of muscovite mica 46
Thermal expansion of fire clay and fire-clay brick 76
Thermal expansion of ground-coat enamels 77
Thermal expansion of magnesite 106
Thermometers, clinical, testing of 54
Time, standard, throughout the world 99
Tin, determination of small amounts of 17
Tool steel, carbon, correlation of some mechanical and magnetic properties of 44
Towels, paper 36
Tube amplifier for feeble pulses 72

U

U bar, freely vibrating, statical hysteresis and flexural stress in 46
Ultra-violet dosage intensity meter 55

V

Page

Vanadium steel dies, resistance of, to abrasion 83
to abrasion by plastic spark-plug porcelain 94
Voltage dividers, use of, with cathode-ray oscillograph 68
Volume changes in cast iron during casting 43
Volume changes in metals during casting 5

W

Water, heat of vaporization of 24
Wax, sealing, identification of 116
Weather resistance of pottery glaze 57
Weathering of ceramic materials 83
Weathering of paints, accelerated 115
Weighted silk, analysis of 104
Weights and measures conference will not be held in 1932 54
Weights, nickel-chromium alloys for 98
White-metal bearing alloys, mechanical properties of, at elevated temperatures 43
Wind pressure on a model of the Empire State Building 101
Wood poles for overhead electrical lines, revised stresses in 60
Wool, isoelectric point of 56

X

X-ray generators, high-voltage, comparison of 82
X-ray intensities, low-voltage, measurement of 113

Y

Yearbook, standards, 1932 59

Z

Zinc, new circular on 17

U. S. GOVERNMENT PRINTING OFFICE: 1932
